

Making Aviation Simple!

AERgO International Pty Ltd is a provider of logistics services specializing in aircraft charter operations. Whether it be moving shift workers to site, executives to a conference or urgent cargo by airfreight, AERgO will find the most cost effective solution to suit your needs.

AERgO has an extensive range of aircraft available at short notice to deliver an efficient and reliable transport solution.

Our objective is to maximize client value for every dollar expended on air-kilometers for charter services.

BENEFITS TO THE CLIENT

* Ability to change schedule and departure time and avoid risk of missing flightcan allow staff to vary the itinerary to suit their needs.

* No waiting for check in and no lengthy wait time for flights. Check in only required 10-15 mins prior to departure.

* Charter Aircraft can operate into the nearest airstrip/airport to your final destination saving time and money.

WHY AERgO?

We operate a lean professional organization with comprehensive combined industry experience of over 70 years.

Our structured approach helps us to fully understand our client's needs before we offer solutions.

Safety is our number one operational focus, and as such AERgO only works with safe, reputable operators who abide by our strict risk management processes.

Our 'whole service philosophy' approach means we take an interest in every part of our client's service requirements, maximizing the return for dollars spent on transport and logistics.

Having a range of aircraft to choose from allows AERgO to deliver effective and economical solutions in comparison to main stream airline operations.

If you would like more information or to discuss your next charter requirement contact AERgO today and experience the difference!

AERgO International is proud to announce the addition of a Boeing 737-400 Freighter to its range of options for available charter aircraft. This aircraft has superior payload/range capability and is well suited for operations into smaller runways.

AERgO AIRFREIGHT SERVICES

*Urgent spares and equipment can be transported to the intended destination quickly and efficiently, realizing significant savings through downtime reductions.

*Our highly experienced staff help determine the best suited aircraft based on load specifications and intended location.

*From a 1kg parcel to a 30t generator and everything in between, AERgO will find the right solution for your needs.

AERgO's list of recent freight charter experience includes;

- Antonov 124 moving 75 tonnes of mining equipment from Tel Aviv into New Caledonia.
- Over 40 Charter flights using the 737-300 freighter from Brisbane to Noumea.
- Rear loaded Illuyshin 76 moving oversized cargo.
- Antonov 124 - Singapore to New Caledonia moving large mining equipment to site.
- C130 Hercules - Australia – PNG/Samoa/Tonga for AID relief.
- Smaller loads (up to 4t) using Bombardier Dash 8 - Aust – PNG.
- Antonov 124 moving helicopters for the ADF to assist with Tsunami relief.

Whether you're looking to expedite the supply process or to fast track critical spares to get your operation moving again, AERgO have the expertise and choice of aircraft to help your business. Downtime can represent an enormous hit to your bottom line, far outweighing the perceived total cost of sourcing spares and getting your business back into operation.
